

## LETTER #4: The Plan of the Enemy

**Focus Scripture:** "In the spring, at the time when kings go off to war, David sent Joab out with the king's men and the whole Israelite army. They destroyed the Ammonites and besieged Rabbah. But David remained in Jerusalem." 2 Samuel 11:1

Dear Graham,

God indeed knew what He was doing when He created women. The shape of a woman's body as she matures pleases the eye of a man and attracts him to her. That is a blessing from God. The problem is there is a fine line between appreciating a beautiful woman, and lusting after a woman, and ultimately acting on that lust.

You have a very real enemy that is out to destroy what God originally intended about the proper use of sex. Satan will try to distort the wonderful gift of God-given beauty to destroy you and your relationships with women. Satan will produce a counterfeit of what God creates that seems like a great idea at the time, and even feels good for a season, but in the end leaves your broken, empty, apart from God, and having a distorted view of the opposite sex. To illustrate this I want you to read 2 Samuel 11 and read the account of David and Bathsheba. We will use this story for our campfire tonight.

Tonight over the campfire we are going to talk about the different ways that Satan will attack you, but most importantly I will teach you how to defeat those attacks. This is one of the most important conversations we will ever have as father and son. A battle rages for your heart. Let's make sure that the enemy NEVER gets even a small piece of it.

In the battle with you,

Dad

What do you think Satan's plan is to destroy God's plan for sex?

How do you see this being played out on TV? In the movies? At school?

What weapons does God give us to combat the enemy and his plan for your life?

### Tonight at our campfire we will...

- Talk about what our culture says about sex.
- Talk about the enemies plan for your sexuality and its consequences by looking at David.
- Talk about what God's plan is for your sexuality and its consequences.
